

## BUILT TO LAST

PROPERLY MAINTAINED, THE HEAT & GRILL WILL DELIVER A DEPENDABLE AND SAFE SOURCE OF HEATING AND VERSATILE EASY COOKING FOR YEARS TO COME

Changing your Heat & Grill from Heat to Grill is easy thanks to a unique baffle system.

### HEATING

With the baffle in the up position your fire is in heating mode, with a generous but protected view of the fire view through the massive glass the Heat & Grill can heat up to 170m<sup>2</sup>

### COOKING

Move the baffle forward to slide behind the glass and block the heat to transform your fire into a grill. Stand directly in front and cook directly over the flames with 5 different cooking methods to experiment with. Grill, bake, roast, smoke or even pop a pizza stone on the grill for a wood fired sensation.

HEAT & GRILL  
weight 116kg

### PROTECTING THE ENVIRONMENT

Due to directional air supply, there is significantly less smoke produced, than by other wood outdoor heating and cooking products. A short flue pipe directs what little smoke there is away from the unit and those around it.

### 5-YEAR GUARANTEE

The Heat & Grill not only delivers great performance and environmental standards but also comes with a 5-year Guarantee. Five Years for the bodies of the appliance. One Year all non-consumable body parts.

# COOK, EAT AND KEEP THE PARTY GOING ON OUTSIDE

## CLEAN HEAT

- Heats up to 170m<sup>2</sup>
- Single lever air control
- Minimal smoke emissions
- Log Store base
- Technology only seen in indoor wood heaters

The Heat & Grill is a high performance dual-function heater and barbecue which has been made for those who love nothing more than firing up the barbecue for a spontaneous outdoor feast or simply looking for ways to use their precious outdoor space more often.

The grill size is ideal for rustling up some sausages and burgers for a party of 6-8 using fine grade charcoal or popping a pizza stone on the grill, closing the lid and achieving perfectly cooked crisp wood cooked pizza in minutes.

The elegant design will suit any exterior style and encourage you to get outside more... even if it is just to have a cup of coffee with the newspaper, on a crisp morning.

## QUALITY COOKING EXPERIENCE

- Adjustable grill height for cooking different sizes and cuts of meat
- Fully insulated lid with thermal rotation to reduce heat loss
- Variable cooking modes
- Self-Cleaning
