

Custom Gas Fire Pits

Individual Burners to Build The Perfect Fire

Crystal Fire Burners are made from high quality stainless steel and include tempered glass gems and ignition controls. All standard burners are Australian Gas Approved for safety and quality. They work with our line of fire pit tables or can be purchased separately for custom-built fire pits and projects.

Crystal Fire™ Burners run for up to 8 plus hours using a 9 kg propane tank or can be hooked up to a natural gas line. With just the push of a button, a beautiful clean-burning fire appears atop a bed of tempered glass fire gems.

- Available for Natural Gas and LPG
- 1 year warranty on ignition
- Limited Lifetime Warranty on stainless steel
- Electronic battery operated ignition, or 240 Volt
- Can be purchased individually to be used for custom-built projects
- Glass guard to enhance flame
- Includes: LP hose and regulator, metal flex hose, ball valve, push button sparker system
- Can be installed in open weather areas

Brilliant Heat. Beautiful to Watch.

Automatic Ignition (AI)

The Crystal Fires™ - AI system is a direct spark ignition with flame sensing and automatic valve. The system is controlled by a module that sends a spark signal to the electrode (igniter), opens the gas valve and then the gas ignites. Once lit, the flame recognition senses the flame, and the electrode stops sparking. If the conditions are windy and the flame blows away from the sensor the system will try to reignite. If the burner is unable to reignite after 12 seconds, the system will enter safety shut down mode and close the gas supply to the burner. As with all Crystal Fire™ Burners, installation should be completed by a certified gas technician.

- 1 year warranty on ignition
- Simple ON/OFF operation
- Crystal Fire™ Burners with automatic ignition can be purchased individually to be used for custom-built projects
- Glass guard to enhance flame and performance
- Australian Gas Approved
- Includes control panel with ON/OFF switch
- CF-AI comes set up to run on two D batteries but can be adapted for 240 Volt
- Installation to be completed by certified gas technician
